

# LEWIS DONLEY

FRONT END DEVELOPER

## PROFILE

I am graduate ready to put my experience, education and drive into my first position in the IT industry.

I've gained a vast amount of skills from university, in which I graduated with a first class honours in Computer Science, as well as the two years spent in China to work, travel and develop myself.

I am eager to learn, easy going by nature and enjoy working in a team, I also have a very high attention to detail.

I'm looking for a employer that I can progress and develop with, eventually helping me achieve my goal of becoming a Full Stack Developer.
